REQUISITION MADE FOR MEMORIAL FUND

**Citizens Of County Contribute \$70.
State To Give Equal Amount
For Bronze Tablets.**

Citizens of the county having contributed \$70 to the fund to be used for erecting in the county courthouse bronze memorial tablets in honor of all of the Barry county boys who served in uniforms during the world war, the county court at the February term ordered a requisition made upon the Government for an equal amount which is to be given by the State for the payment of the tablets.

The county committee in charge of the Memorial for the Barry county boys, Hon. J. F. Mermoud, C. C. Chandler, M. H. Roberts and W. H. Wormington, have started the work of getting an accurate and complete list of the names of all of the Barry County boys enlisted for service during the war. After the list is checked over the tablets will be ordered, carrying out the plan for the Memorial as given out by the committee last fall when the work of soliciting the funds was begun.

The names of the boys who made the supreme sacrifice are to appear on a special tablet to be mounted in the center. The names of all of the boys in the service are to be burnt into the bronze.

Upon the completion of the work the committee plans an appropriate ceremony of dedication at which time the tablets will be erected.

Every township in the county has contributed to the fund for erecting the tablets except one township which refused to help.—Caseville Republican.
